

DPFxFIT™

Diesel Particulate Filter &
Diesel Oxidation Catalyst Program

OEM Durability & Performance
With Aftermarket Affordability

DPFXFIT™ PRODUCT ADVANTAGES

OEM DURABILITY & PERFORMANCE WITH AFTERMARKET AFFORDABILITY

DPFXFIT™ is an aftermarket Diesel Particulate Filter (DPF) and Diesel Oxidation Catalyst (DOC) line, designed as a direct replacement to the most common OEM aftertreatment systems.

- An exact fit designed for ease of removal and installation (with the exception of cut out/weld in units)
- Diesel Particulate Filters & Diesel Oxidation substrates sourced from top tier suppliers in the industry
- All DPF and DOC units include OEM grade clamps and gaskets
- All metal parts are made from high quality stainless steel for increased durability
- All units are designed and manufactured in North America
- All DPF and DOC's come with a 2-year Unlimited Mileage Warranty

DPFXFIT™

Product & Program Features

ONE-PIECE CANISTER DESIGN

DPFXFIT™ has made significant investments into advanced canning systems to produce a one-piece metaform canister, equal to or better than the products from OEM's.

SAME OEM COATING THROUGHOUT

DPFXFIT™ utilizes OEM platinum group metals in our wash coat that are vacuumed charged to ensure the entire filter is equally coated.

OEM QUALITY CLAMPS AND GASKETS

DPFXFIT™ includes graphite gaskets and OEM quality clamps to ensure a perfect seal when replacing an OEM or aftermarket filter with a DPFXFIT product.

DISCIPLINED DISTRIBUTION & LOGISTICS PROGRAMS

To best serve our customers, DPFXFIT has established exclusive partnerships in strategic locations to offer fast lead times and product availability.

ALWAYS NEW - NEVER RE-MANUFACTURED

DPFXFIT™ always uses new raw material and components and never sells re-manufactured units.

LIGHT & MEDIUM DUTY

DPFXFIT™ LIGHT & MEDIUM-DUTY PROGRAM

BETTER PERFORMANCE | BETTER SERVICEABILITY

DPFXFIT™ is an aftermarket Diesel Particulate Filter (DPF) and Diesel Oxidation Catalyst (DOC) line, designed as a direct replacement to the most common OEM filter systems.

- Delivers higher horsepower and torque for light & medium-duty diesel applications
- Reduced back pressure and increased turbo boost vs. OEM equipment
- Larger filter can be accessed with included V-band clamps for ongoing service
- Stainless steel construction, yet lighter weight than OEM

PERFORMANCE IS IN OUR DNA

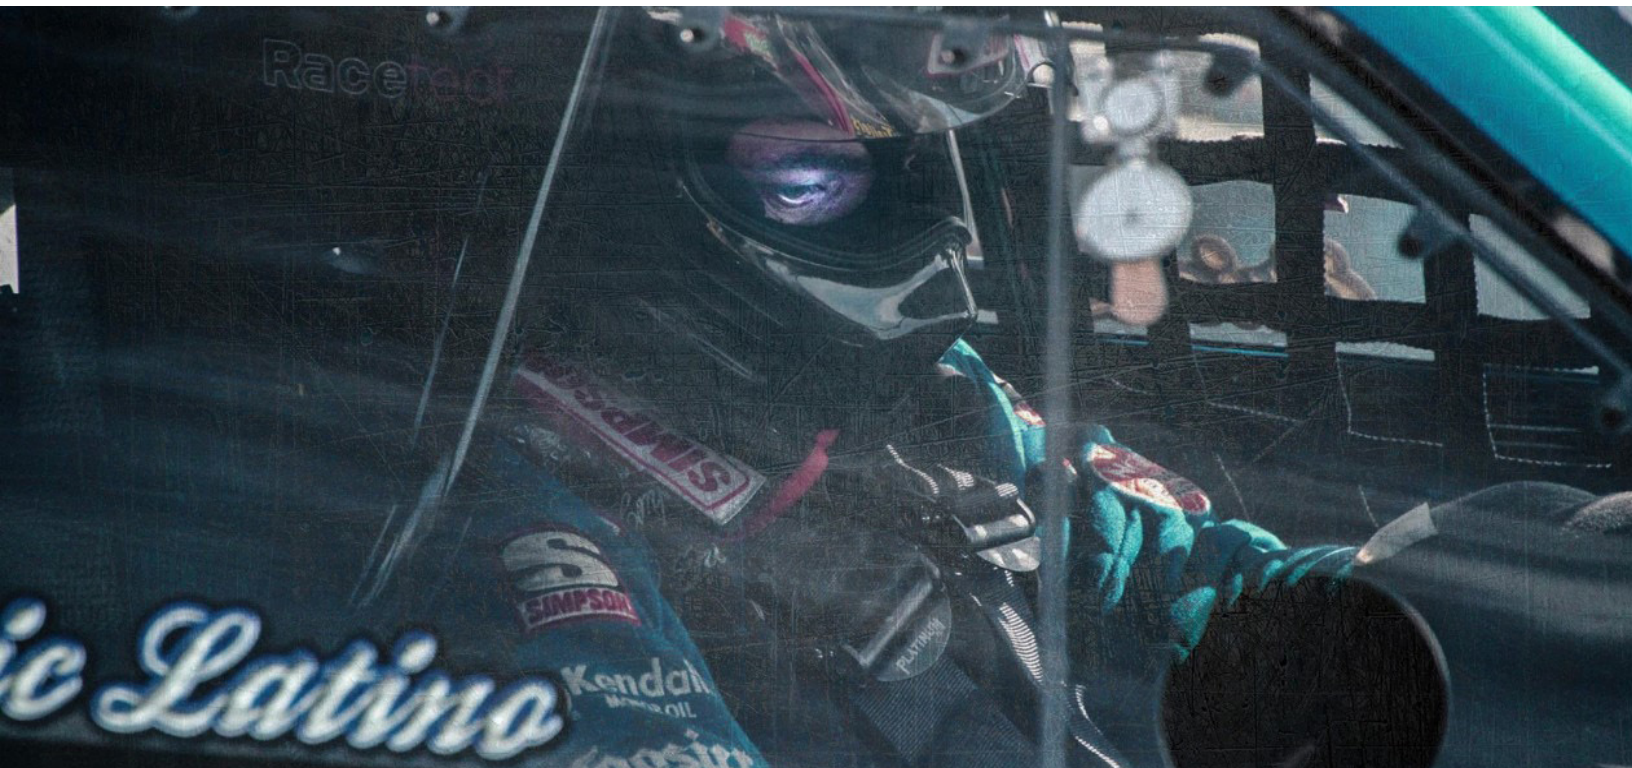

Some may recognize our founder, Eric Latino, as a record-breaking NHRA driver, but since 2001 Eric and Global Emissions Systems Inc. (GESi®) have been focused on supplying the OEM and aftermarket with industry leading emissions control components with quality and performance at top of mind.

About Global Emissions Systems Inc. (GESi®)

Global Emissions Systems Inc., (GESi®) specializes in the design, engineer and manufacture of world leading emission control technologies that dramatically reduce smog and greenhouse gas exhaust emissions from any commercial fuel burning engines.

GESi® is a privately held Canadian company, located in Whitby, Ontario. Incorporated in 2001, GESi® has conducted over nineteen years of research and development in creating and testing their patented and proprietary advanced emission reduction technology called Dry Selective Catalyst™ (DSC™). The technology has been tested and verified in many applications from high performance automotive up to as large as a 2500 hp natural gas co-generation plant, in locations all around the world.

The GESi® technology is effective for any type of engine, whether it is spark, rotary or compression, and works with all commercial fuels including gasoline, propane, natural gas, diesel, biodiesel, landfill methane, bio-gas and syngas. This technology can be installed at the time of manufacture or can be retrofitted to any existing engine installation.

The GESi® technology can reduce up to 99% of hydrocarbons (HC), carbon monoxide (CO), and nitrogen oxides (NOx), which are greenhouse and smog related emissions. For diesel applications we created **DPFxFIT™, a line of DPF's and DOC's which reduce over 98% of diesel particulate matter. These harmful emissions contribute to pollution, health issues, and global warming.**

GESi® Mission

Design, Engineer, Manufacture, Sell, and Support, emissions technologies by exceeding the expectations of our partners and our industry.
